EXPERIENCE

Knowtech, Mumbai — Android Developer Intern

September 2020 - PRESENT

- Working with modern Android Development practices with **Material Design, Android Jetpack** and android architecture with **MVVM Architecture**.
- Working with **Firebase, Room Database**.

PROJECTS

Soni Meals — Food Ordering App

An Android App that enables one to authenticate and choose from a list of restaurants and easily order food from their visual menus to be delivered at their doorstep.

This app is made with **Material Design, Volley, Picasso, Room Database**.

[LINK](#)

Expense Manager — Helps to manage Expenses

An Android App to easily handle/record expenses. One can add the amount and its source and their net profit/loss will be displayed. The app also helps to set their credit/debit due date reminders via **Notifications**.

This app is made with **Room Database, Coroutines, viewModel, Material Design, Chart Library, Navigation Components**.

[LINK](#)

KT-Notes — Notes App

A secure Notes taking app that lets one authenticate and save their notes. They have the option to switch to Dark Mode. The data is locally saved in Room and automatically syncs when the internet is available.

This app is made with **Firebase(Authentication and Database), Coroutines, Shared Preferences, Room Database**.
